

Pair of reduced soccer nets for 4x2 goals in polypropylene braid diam. 3 mm. U.V. stabilized, knotless processing.

Football goal net in textured high-tenacity UV-stabilized polypropylene braid. Knitted without hexagonal mesh reinforced on the heights. On the perimeter, 3 mm elastic sewn rope, finishing performed to facilitate the assembly of the net on the doors and to guarantee greater resistance and durability. Complete with rope for attachment.

Dimensions:4x2m

Top depth 1 m

Lower depth 1 m

Mesh:Hexagonal

Wire diameter: 3 mm

Material: HT polypropylene

Color:White
